

Koladé Moussè ABOUDOU

Full Stack Developer · Project Coordinator · Remote 

PROFILE

Passionate Full Stack developer with 3+ years of experience, equally comfortable on the back-end (NestJS, Laravel) and front-end (Next.js TSX, Nuxt 3 TS). TypeScript is my everyday language. As a Project Coordinator at HighFive University / Vipp Interstis, I'm used to managing remote team deliverables.

Currently pursuing a Master's in IT Management (ENEAM, 2025–2026), I am looking to join international teams in full remote to take on ambitious technical challenges. Code quality, clean architecture and user experience are my top priorities.

Outside of work, I am passionate about manga, anime and music.
